KNOXVILLE, Tenn., Nov. 21.—At a mass meeting of union labor men held Thursday night a resolution was adopted denouncing the party or parties who have been planning explosives on tracks of the Knoxville Railway & Light Co. as "dastardly criminals meriting the most severe punishment known to the law."

HARDING AND ROBERTS ASK COAL CONFERENCE

NASHVILLE, Tenn., Nov. 21.—To a telegram from Gov. W. L. Harding, of Iowa, proposing that a wage scale be agreed upon whereby the coal producing states might induce the miners to return to work pending settlement of the strike trouble, Gov. A. H. Roberts, of Tennessee, Thursday night replied suggesting that a conference of the governors of coal producing states be held immediately and a uniform method adopted with a view to prevailing upon the miners to return to work pending final settlement. Gov. Roberts has also called on Atty.-Gen. Frank M. Thompson for an opinion as to what steps the state could take under the law to reopen the mines and this he expects to receive by Saturday morning.

"The only way to produce coal is to have the miners go back to work," says Gov. Harding's message. "Suggest that governors of coal mining states take charge of mines under whatever power of plan they have at their disposal. Pay a wage to miners during pendency of negotiations at Washington. If the plan is to be carried out, it will relieve the situation without disturbing the status or rights of the coal miners. Can we or will you do this? Am wiring governors of coal producing states. Think miners will produce coal under such a law."

While ready to do everything in his power to relieve the situation, Gov. Roberts said he was hardly willing to pay such figures as suggested by Gov. Harding as he did not want to do anything that would tend to give other sides in the controversy any edge over the other.

TUBERCULOSIS CUTS IN ON STATE'S EARNINGS

JACKSON, Miss., Nov. 21. (Sp.)—Estimating that every victim of tuberculosis is capable of making \$12.00 a week, or \$624.00 a year, the \$300 deaths from this disease in Mississippi last year caused almost a \$3,000,000 decrease in the earning power of the state. The exact figure, computed by a well tested plan, is \$1,872,000.

To prevent this economic, as well as human loss, the Mississippi Tuberculosis association will offer for sale December 1-11 upward of \$200,000 worth of Christmas goods. The goods are toward adding the sufferers of the "white plague" already known, toward the marketing force in Mississippi, and education against the dangers of the disease and toward paying the expenses of visiting nurses who travel over the state and give relief to the afflicted.

Jackson and T. M. Patterson, head of the marketing force in Mississippi, have issued an interesting bulletin on "Harvesting, Storing and Marketing Sweet Potatoes," which can be obtained by writing to Mr. Bryson, Jackson.

At present the canning factories of South Mississippi, 16 or 17 of them, are caring for a portion of the crop at from 75 to 85 cents a bushel. Several cars were recently shipped into the delta, bringing from \$1 to \$1.10 a bushel.

YAZOO DISTRICT WOULD USE SUGAR FOR ITS BEES

YAZOO CITY, Miss., Nov. 21. (Sp.)—R. B. Wilson, state extension specialist in bee culture, has advised local beekeepers that he may be able to secure the sugar necessary for feeding the colonies in this section if he is notified of the need. The action on his part is brought about by the shortage of sugar. Applications for sugar are to be in-duced by the county agent unless the beekeeper is personally known to Mr. Wilson.

This spring a beekeepers' association was organized for the first time in Yazoo county and Mr. Wilson is especially interested in the growth of the industry in this county, as well as in the state at large.

Difficult to Keep Your Hair Wavy? Read This

If you have not yet tried the new way, the shirmer way, by all means do so. You'll never again use the ruinous heated iron. The curlers will shatter so perfectly natural and the hair will be so beautifully lustrous, instead of dried and parched. Thus liquid shirmer serves also as a beneficial dressing for the hair. It is neither sticky nor greasy, but quite pleasant to use. It should be applied at night with a clean tooth brush drawing the latter through the hair from root to tip. The hair will have the loveliest curls and waves imaginable in the morning, and it will be easy to manage, no matter how you do it up. A few courses of the liquid from your druggist will last a long time.
